## Recommendation

**THAT the French Translation Working Group Report be received as information.**

## Purpose

FOPL endeavors to provide equitable access to all its services, documents, and research. As such, the French Translation WG provides translations for items identified and requested by our members on an ad hoc basis.

## Activities of the Working Group 2025

The French Translation Working Group met once in 2025.

Ad hoc translations continue to be done as needed.

Most notable for the group was the review of professional translations of the new strategic plan, its info sheet and new rack cards
